Dear Customer:

Thanks for your order! Enclosed is the newest version (Version 2.0) of SPECIAL DAYS® and/or FOOTPRINTS IN HISTORY™. Here is what is new:

1. **New Databases** - you can now create a TimeScript or Timeline for any date from January 1st, 1850 through the end of 1989.
2. There are a variety of new features in SPECIAL DAYS:
 - a. **Control Over The Borders.** Regardless of the type of printer you have, you can now turn the page and title borders on or off. This allows you to use special forms with preprinted borders, or to add your own borders with your word processing or desktop publishing package.

You can also now substitute different character sets for the borders to tailor the title box and document border to what works best on your particular type of printer.
 - b. **The Ability To Print TimeScripts To Disk Without Printing Them On Your Printer.** You can now save paper and time by printing your reports to disk without having to also print them on your printer. You can then port this disk file into your word processing or desktop publishing package for enhanced formatting and printing.
 - c. **Date Calculation and Formatting Improvements.** SPECIAL DAYS has an improved date calculation routine used when creating Anniversary TimeScripts. All three TimeScripts will now display the day of the week in the title box (e.g. "Monday") instead of just the date. Some other minor formatting changes have been made to the Birthday TimeScript format.
3. FOOTPRINTS now comes with the Summary Report turned off and the option for you to turn it back on or off as needed.

For more information on these features, please review the README file on your Program Disk.

We are sure you will enjoy your new SALINON Software and hope you decide to try some of our other programs in the future. We have enclosed an order form that gives you a brief description of some of our other offerings. Thanks again for your business - it is appreciated.

Cordially yours,

Mike Carr

What A Few Users Say About SPECIAL DAYS and FOOTPRINTS IN HISTORY:

"I think your software (SPECIAL DAYS™ and FOOTPRINTS IN HISTORY™) is great. Change nothing and keep those updates coming. ... I sell SPECIAL DAYS reports along with a cake on customers' anniversaries and birthdays."

William Guttin, Owner of Guttin's Bakery in Providence, Rhode Island.

"I am enjoying them (SPECIAL DAYS and FOOTPRINTS) to the fullest. There are 14 people who work in this office. The day I got SPECIAL DAYS and learned to use it, everyone came into my office and we did birthday and anniversary reports."

Herman Winstead with Better Business Services in Lakeland, Florida.

"I feel these are two of the best programs (SPECIAL DAYS & FOOTPRINTS) I have and they couldn't be easier to use. Don't change a thing!"

Patricia Sturgis in St. Louis, Missouri.

"FOOTPRINTS: A great program! I enjoy just looking at all the interesting data. SPECIAL DAYS is also nice. By the way, your documentation is first rate - a rare find for computer software at any price."

Cheryl Rein in Tomball, Texas.

"I like the program (SPECIAL DAYS) very much. My customers in the frame shop think it's a nice impulse purchase item ... I use it to promote custom framing. The output looks great on computer parchment paper."

Kerry Jones, The Frame Up in Griffin, Georgia.

"I love them both (SPECIAL DAYS and FOOTPRINTS) ... I use both programs to make cards, etc. for our Sunday School class. We are senior citizens and we all love the chance to reminisce - DO WE EVER!"

Ken Cowan in Arlington, Texas.

"I like SPECIAL DAYS. I currently use the output as gifts in my teacher's boxes on their birthdays and anniversaries."

Fred Schouten, Principal at MVK High School in Mazon, Illinois.

"I really like it (SPECIAL DAYS). My customers love it ... We sell the printout on parchment or color paper to customers. I was really impressed when it came back with up-to-date material for a baby's birthday born in 1988."

Ilthro Lastique in Burnet, Texas.

"My comments about SPECIAL DAYS: Well liked. An instant success. Very easy to use this program - no learning time is needed. You have a winner!"

Jack Stahl in Harrisburg, Pennsylvania.

"Excellent program (SPECIAL DAYS) - good mix of facts. We used it at our company picnic and it was a great success."

James Stockwell, Manager of Data Processing at Teledyne in Los Angeles.

"SPECIAL DAYS is one of the best programs I have ever purchased ... My son has used the printouts to earn money for things he wants. He is only eight and has earned more than we ever expected. People who have purchased the printouts keep coming back for more and more."

Charles Allen in Gallatin, Missouri.

"I am thrilled with your software. Everyone is utterly amazed at the information provided for them on their special occasion. I have used SPECIAL DAYS more than FOOTPRINTS but have yet to find any errors in history in either program."

"Your programs have found a place in the market where there was a void. I have had unlimited hours of joy in preparing a special greeting for family and friends on their special occasions, thanks to your software."

Roy Burchfield in Dallas, Texas.

"I like SPECIAL DAYS very much. I put it on my hard disk and am surprised how often I use it. I create birthday and anniversary greetings with it, and have even used it to create gifts for my college students."

Melvin Drucker, PhD., in Decatur, Georgia.

"I have SPECIAL DAYS and I really like it! It is fun to do 'work' for friends / relatives. I've only had the program a few days and it is so easy to use that I only read the installation and startup commands. The 'Quick Start' card is perfect (I always enjoy the software 'cheat-sheets' for fast operation / learning. I look forward to getting FOOTPRINTS too."

Nancy Weslager in Temple Hills, Maryland.

"These two programs: SPECIAL DAYS and FOOTPRINTS IN HISTORY, are two of the nicest and easiest programs I have ever encountered. User Friendly ought to be their second names."

Don Ecker in Boise, Idaho.

"Your SPECIAL DAYS Program is fantastic! As a Realtor, I purchased your program to send to friends and clients in lieu of the usual greeting cards, which while appreciated, usually end up in the trash and probably forgotten. Your program is unique, personalized, and hopefully something that someone would keep and perhaps show others."

Marilyn Miller, Realtor with Rainbow Properties in Lakeland, Florida.

"I enjoyed it (SPECIAL DAYS) very much. It works very well and I like the way it brings up information on the screen. We used it at our church carnival and sold about 130 Timescripts (at \$1.00 each which allowed us to break about even after expenses, next year we might charge a little more)."

Bob Pedrotti in Maryland Heights, Missouri.

Dallas, Texas 75231

Mr. Mike Carr,

"Thanks" is a nice way to begin any conversation, it feels even better when a letter like yours comes along with it. I am editor of a newsletter that reaches most of the "old car" enthusiasts here in South Florida, and I run a BBS with users from all over the country. Needless to say, I get to see lots of software. Not one piece has ever been so easy to use, as your program "SPECIAL DAYS". I bought the program to use in conjunction with newsletter articles, it arrived on the day of my wife's birthday party, so we set it up and every one had a blast with the program all night long.

The car club I am Activities Director for (the Roamin' Chariots) sponsor a show in December called "Toys for Tots" we accumulate over 6000 toys (\$200) and give them, with the Marine Corps, to underprivileged kids. That donation makes us Broward County's largest donor. At this year's show we will have "SPECIAL DAYS" there cranking out birthday comments for any kid there.....of course Free. With a funny face clown passing out the print-outs.

Obviously, we love your program. From the "Growing intro", through the sound effects while your PC thinks, to the super looking print out. It's beautiful. Best of all your customer support is to be applauded. I would recommend this program to everyone that loves today, and still takes the time to remember yesterday.

Yours truly,

Dave Siegel

P.S. You may use my name all you like, and any quote you like. But, please use Dave instead of David. Thanks

SALINON Software Order Form

These programs will run on IBM® PCs or compatibles with at least 256k of memory and DOS version 2.1 or higher (FOOTPRINTS requires 320k with DOS 3.0+). A Few SALINON Products

NAMER BY SALINON® (\$195) - helps you create memorable on-target names for your company, product, or service. NAMER gives you eleven different name generation methods, over a dozen key word databases indexed by industry and connotation, and a 200+ page User Guide / Naming Thesaurus.

NAMER stimulates your creativity by giving you the tools to combine and manipulate letters, syllables, morphemes, words and phrases. You can "teach" NAMER the types of names you're looking for and even have it check names for possible offensive meanings in five languages.

HEADLINER® (\$195) - helps you write catchy slogans and titles for ads, brochures, newsletters, radio/TV spots, articles and even speeches. It comes with the software to find and modify any of its over 33,000 popular or clever built-in expressions: idioms, quotes, proverbs, titles, slogans and more.

You can search for key words or sound-alikes, substitute new phrases, and match for acronyms or rhymes. You can also create new expressions on the fly with the built-in editor and then save them in your own electronic Note Pad.

WORDS THAT RING™ (\$99) - helps you pick better telephone numbers / words that describe the service you provide (PET-CARE vs. 728-2273), suggest an action you want the caller to take (GET-HELP instead of 438-4357), or emphasize an important product characteristic (COMFORT vs. 266-3678).

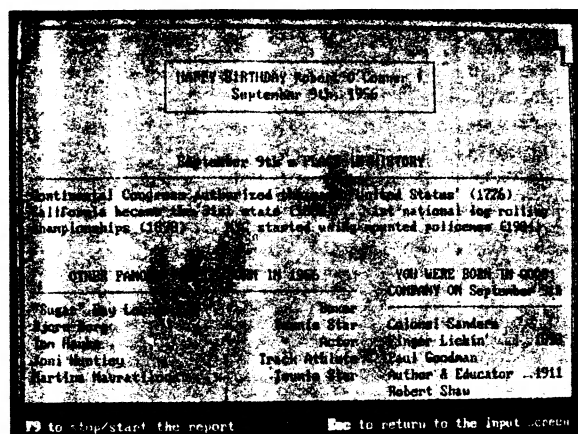

WORDS THAT RING is: 1) A 240+ Page Directory of Telephone Numbers That Form Words (And Vice Versa). 2) A Supplemental Diskette containing a 37,000+ word / telephone number database and three programs: NUMWORD (finds words for a given telephone number), WORDNUM (converts a word into a phone number), and CONVERTA (converts the databases into ASCII format).

SPECIAL DAYS™ (\$39.95) - generates birthday, anniversary or flashback reports. You can create personalized gifts that spotlight memorable days for clients, co-workers or friends. Many customers sell the output from SPECIAL DAYS to increase storefront traffic or to raise funds for schools, churches, clubs or their own businesses.

FOOTPRINTS IN HISTORY™ (\$39.95) - shows multiple milestones from one's life in historical perspective. You can chart your family's, a friend's or a company's history from before the Civil War to modern times. Some companies are using FOOTPRINTS to chart their organizations' growth and development for presentation at employee training sessions and stockholder meetings.

As your birthday rolls around, do you ever wonder about famous events that occurred on the exact day or in the year you were born? Would you like to know which songs were popular the year your parents were married? Did you ever feel that commercial greeting cards were too impersonal, not really reflecting your thoughts and feelings? Do you long for something unique? Wish no more, *Special Days* from the Life and Times series by Salinon is here.

Special Days is a database with preset reporting options comprising over 10,000

facts and bits of trivia about the years 1850 through the present. It features such information as popular songs, famous people born on your special year or on your birthday, sample grocery prices for those times, special events, and news events. It has a simple user interface with file-folder icons and help at the press of a key. There are three types of reports—birthday, anniversary, or flashback.

I immediately did birthday reports for each of my children, my husband, and myself. I learned that Stephen Crane shares my birthday, five pounds of flour cost \$.26 when I was born, and "Chattanooga Choo Choo" received the first gold record ever awarded.

Next, I did a report for friends who were celebrating their 20th anniversary. I printed the final report on parchment and placed it in a simple wooden frame. Nostalgia coupled with personalization ruled, and the results were impressive.

An excellent user's guide gives step-by-step instructions on program installation and use. For those who don't need the basics explained, there is a short section to get anyone up and running. The manual also provides a trouble-shooting section, suggestions for use, and the names and addresses of companies that supply parchment.

Uses for *Special Days* far exceed the suggestions in the manual. I used the database to find facts of interest for each day of the month, and added them to a calendar that I had created with another program. Hung in my kitchen, it attracts attention from all who

see it. Since the program automatically saves each document as an ASCII file, I could easily load a file into my word processor for enhancements. Taking this a step further, I created a mock newspaper with both *First Publisher* (Software Publishing Corp.) and *PageMaker* (Aldus). Reports can even be sent through telecommunication lines. My children have enjoyed making birthday reports for their friends, taking full credit for their ingenuity. No matter how you use it, *Special Days* is certain to please.

—JUDITH ZORNBERG

New computer programs can create family gifts with a sense of history

**MARGARET
ANN
THETFORD**
FAMILY TREE

gifts for family and friends with a look at people and headlines from days gone by.

The family historian will relate to the built-in historical data bases containing thousands of events from 1850 to present. The printouts generated by the programs will provide topics for discussion at the next family reunion. But you certainly don't have to be a genealogical researcher to enjoy turning out the unique documents that make ideal gifts for birthdays, anniversaries, graduations and retirements. Unlike the usual "gag" gifts, these programs, at \$39.95 each, will soon pay for themselves. If both are purchased the total is \$74.90, a \$5 savings. Add \$2 for shipping, and in Texas add 8 percent sales tax. Order from The Salinon Corp., P.O. Box 31047, Dallas 75231. To order with a credit card call 1-800-722-0054.

Want to have some just plain fun with your computer? Two new, inexpensive programs, *Special Days* and *Footprints in History*, create personalized

The one-page *Special Days* documents can be a birthday, anniversary or flashback report with highlights in sports, history, science, entertainment, business, strange and weird happenings, and prices of everyday commodities. They are especially attractive when printed on parchment paper available at computer stores. Mail-order sources for the paper are given in the manual. *Footprints in History* prints a multi-page time-line document after you enter major moments in a person's life (or a business, a church, school, club, etc.) This time line helps give a more complete picture of an ancestor (or an organization) it is shown in historical context. Those preparing a family history would do well to include this sort of background information to add interest to their writing.

Screen menus are self-explanatory, and the illustrated manuals are understandable — in contrast to most. With the quick-start instructions, experienced computer users won't have to read the manual except for some fine points. You'll need an IBM PC or compatible with 256 K RAM and DAS versions 2.1+. With DOS 3.0+ *Footprints* required 320 K RAM. The printer options include lasers.

Three young Dallas businessmen — **Dan C. Stone, Philip Lindsley III and Michael L. Carr** — have utilized

supposedly cold computer technology to produce a warm and worthwhile product.

"Old genealogists never die. They just lose their census." such is the stuff of Fonda D. Baselt's *The Sunny Side of Genealogy*, a humorous collection of anecdotes, poems, whimsical wills, funny epitaphs and other miscellany. This lighthearted book will keep genealogists from taking themselves too seriously and will provide lots of material for editors of newsletters for family associations or genealogical societies.

The 100-page paperback is \$11.45 postpaid from Genealogical Publishing Co. Inc., 1001 N. Calvert St., Baltimore, Md. 21202.

Are you researching Illinois ancestors? The free booklet, *Counties of Illinois, Their Origin and Evolution*, has 23 maps showing original and present boundary lines. Request from Secretary of State, Springfield, Ill. 62756.
